Fellow Studebaker Drivers

Each new catalog we print contains many new items and this issue is no exception as we continue to identify parts from our vast "New Old Stock" inventory and are actively reproducing new items on a regular basis.

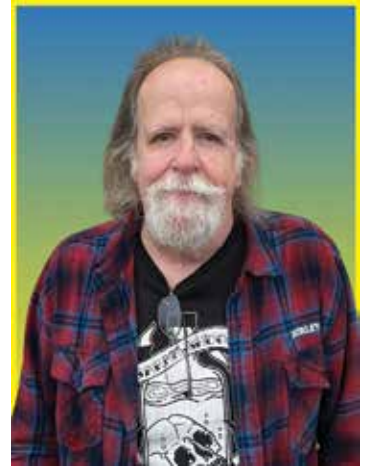

New Avanti Bumpers are now Available!

We try to attend as many swap meets as we can and folks have discovered the convenience and savings on shipping costs when pre-ordering and picking up their parts at said meets.

As most of you know we had to move both our Greenfield, IN and South Bend, IN facilities to Hope, IN and Shelbyville, IN. We invite you to stop in for a visit, just give us a call ahead of time.

Thank you everyone for your continued business.

Jim Lime

Customer Service

If you have questions or just need some clarification concerning what parts to order, please call our customer service department at **(317) 462-3124** and someone will assist you.

You may also place your order using this number. **PLEASE NOTE: WE DON'T DO SERVICE WORK THEREFORE WE ARE NOT ABLE TO ANSWER YOUR MECHANICAL QUESTIONS.**

Telephone Ordering

Our sales personnel process a large volume of telephone orders on a daily basis and we recommend the following procedures to save time for us as well as yourself.

1. Prior to calling, write out a list of the parts you wish to order including the part number and a short description. We recommend using our **ORDER FORM** at the back of this catalog or our online form at http://www.studebaker-intl.com/contact_us.html since the blanks represent the information we'll need to complete your order over the telephone. Part numbers are always preferred for accuracy.

* Please note: Parts ordered by description only are subject to interpretation and may be incorrect. **They are returnable for exchange excluding shipping or return shipping fees.**

**We have found those customers who take the time to make this list before they call require less valuable telephone time and make more accurate purchases.

2. Returning customers please have your customer order number ready. It is printed on the back cover of this catalog on the address label.

New customers will need to provide a credit card number and should have it ready.

3. Call **317-462-3124**

Give the part numbers for the items you wish to purchase and the short description you've prepared ahead of time. You will be asked for your customer number and the method of payment you wish to use to complete the transaction.

4. SHIPPING - Shipping & handling fees are added to all orders as well as state tax for Indiana residents. You may request special handling of your order at this time.

* Refer to the following shipping options to choose your preference.

**No preference: We'll send your purchase based on the most economical basis available upon the time of purchase.

5. Save your list and use it to verify your parts when they arrive against the invoice and contact us if there are discrepancies.

Ordering Suggestions

1. When placing an order or speaking with one of our customer service representatives, please take note of their name. This way if you should need to speak with them again you will know who to ask for.

2. **Pay attention to quantity markers in our Catalog. If an item is listed as a "pr." and you order 2, you will receive 2 pair. If an item is listed as "ea." and you do not specify the quantity you want, you will receive 1 item.

Ordering by Mail

Use the enclosed order form and complete all information including your name and address, customer number, item numbers, and a short description of what you want to order. You may pay by credit card or by check.

Certified checks are not held for clearing, but personal and company checks are held 10 days. All checks must be drawn from a US bank.

**Those sending checks need to add an additional \$10.00 for parts totaling \$100.00 or less, 10% of total on orders of \$100.01 to \$250.00 or 5% of total on orders over \$250.00 to defer some of the shipping charges. This is an estimation of actual shipping cost and discrepancies in fees paid will be returned or charged accordingly. Indiana residents add state sales tax.

*This is for check purchases only. Credit card and telephone orders are charged actual shipping fees when invoiced.

Ordering by Fax

Complete the order form from the back of this catalog or go online to print one from our Website. Please complete the form with all information and **INCLUDE YOUR CREDIT CARD NUMBER, EXPIRATION DATE, AND CVV CODE.**

Be sure you include your address and phone number, as well as, your customer number with the fax. Without this information your order cannot be processed. Fax orders are handled promptly and orders received by noon are typically sent the same day.

Domestic Shipping and Handling Fees

Shipping & handling fees include charges for shipping, boxes, and packaging as well as any other costs in preparing items for shipment. Smaller items are usually sent priority mail, larger boxes by U.P.S. U.P.S. charges are determined by weight as well as distance. Items requiring separate packages or special handling in preparation for shipment are assessed accordingly. Shipping charges for back ordered items are charged when the item is sent. Some large or heavy items require freight carriers. Our sales personnel can only estimate the cost of shipping an order. We will email your invoice with the exact amount when your order ships.

Third Day Air Service

For U. P. S. deliveries within 3 days you may specify this service. Order by noon Eastern Time on Monday and you will receive it on Thursday. An additional shipping charge applies to U.P.S. Third-Day Air which is based upon the weight of the items shipped.

Second Day Air Service

For faster delivery you may request this service. Delivery is guaranteed by UPS within two working days from the day shipped. This means that you can place an order with us before noon Eastern Time on Monday and have the parts on Wednesday. An additional shipping charge applies to Second Day Air service which is based upon the weight and distance.

NOTE: AEROSOL PAINT CANS CANNOT BE SHIPPED BY AIR.

Next Day Air Service

For next day delivery you may request this service. Delivery is guaranteed by U.P.S. the next working day after being shipped. Saturday delivery is also available for an extra charge. An additional shipping charge applies to Next Day Air service which is based upon the weight of the items shipped.

Exchanges & Refunds

We want to process your exchanges and refunds quickly and efficiently.

***YOU MUST INCLUDE A COPY OF YOUR INVOICE AND A NOTE OF EXPLANATION IN THE SAME BOX WITH THE ITEMS YOU ARE RETURNING. ALL RETURNS NEED TO BE SENT TO OUR HOPE STORE AT 111 AIKEN ST., HOPE, IN 47246. DO NOT SEND RETURNS TO OUR SHELBYVILLE LOCATION.**

*There is a **\$5.00** "Invoice Search" fee (per invoice) for items returned with no invoice. Also, items returned after 30 days from the date of purchase without an invoice are assessed a 20% return fee. Items returned with an invoice within 30 days of purchase are not assessed a return fee.

Please enclose a note of explanation for the return along with the invoice. This note of explanation must be included even if you have previously discussed the problem with a customer service representative. * If you believe an item is defective, please give a detailed explanation of the problem.

DO NOT FAX OR PHONE THIS INFORMATION TO US. IT MUST BE IN THE RETURNED BOX.

State if the item is to be exchanged for another item, a refund is to be issued, or a credit applied to your account.

Carefully repackage the item and return it to us with adequate insurance. Mark the carton "RETURN" near the address label. It is your responsibility to return items safely. Refunds will not be made for articles damaged during return shipment.

Articles may be exchanged or returned for a refund up to 30 days from the date of purchase with no restocking fee. All returned items including packaging must be received by us in the **SAME CONDITION AS WHEN SHIPPED FOR FULL CREDIT. ITEMS RETURNED AFTER 30 DAYS ARE SUBJECT TO A 20% RETURN FEE. SHIPPING CHARGES ARE NOT REFUNDABLE. Absolutely no returns or exchanges after 1 year from the date of purchase.**

NOTE: RETURN SHIPPING CHARGES ARE NONREFUNDABLE FOR ITEMS ORDERED WITHOUT PART NUMBERS.

Back Ordered & No Stock Items

Items marked on your invoice as "Back Ordered" (B/O) are currently not in stock but are expected. These items will automatically be sent to you when available within 30 days of your invoice date. Should they become available after 30 days you will be called to verify that you still wish to order.

Items marked "No Stock" are not currently available and there is no expectation of their availability.

Damaged Articles

All items are insured against damage in shipment. Notify us & we will submit a claim and replace your order. **DO NOT RETURN DAMAGED ITEMS TO US UNLESS YOU ARE INSTRUCTED TO DO SO.**

NOS Parts Disclaimer

Any NOS parts may have surface rust or shelf-wear.

Electrical Parts Returns

Because improper installation can damage electrical parts, some parts are nonreturnable. Please call and check before returning.

Kit Returns

Substitutions or deletions are not allowed for kits. Likewise, if items are returned from kits the special kit price will be changed to the "Total of parts priced separately" amount. In other words, you may actually pay more by returning parts. Please review contents of kits carefully before ordering as you will only receive the special kit price if all kit contents are kept.

Missing Articles

Check contents of box right away to make certain that everything you ordered and paid for (per the invoice) are enclosed. All orders are checked and rechecked prior to shipping. Report any exceptions to us within 10 days of receiving your package by letter or phone **(317) 462-3124.**

It is your responsibility to check your order for shortages within this 10 day period. **NO ADJUSTMENTS WILL BE MADE AFTER 10 DAYS.** Use your customer number and invoice number as a reference.

Oops - I forgot something!

We are always glad to place a second order or even add onto an order for you. But, please understand we don't always have time to locate your prior order and slip the part in to save you from additional shipping charges. No matter how small the added item or items may be, please expect additional shipping charges.

Core Charges

Certain items listed as "exchange" require a refundable core charge in addition to the cost of the part. This core charge is listed on a separate shipping invoice. To receive your refund, please return your old core with **A COPY OF YOUR INVOICE.**

Because of a shortage of cores, some items in the catalog require that the core be sent to us first. No refunds for cores will be issued without a copy of the core invoice within the returned box. Cores received without an invoice will be held for 10 days and then will be considered a gift.

PLEASE DO NOT RETURN CORES TO US AT SWAP MEETS OR CAR SHOWS. *CORES MUST BE RETURNED INTACT. DISASSEMBLED CORES ARE NOT ACCEPTABLE.

Warranty

All new and reproduction parts are guaranteed against defects in workmanship and material for 30 days from the date of purchase. Items not used by the customer or not installed until a later date have no special warranty and are not under warranty past the original 30 days from the date of purchase. Liability of Studebaker International is limited to the replacement of defective parts only and is not liable for any damages to property, loss of time, loss of profits, or any other incidental damages arising from the purchase or use of items purchased. The buyer assumes all risks or losses associated with parts purchased from Studebaker International. Although we make every effort to make the information in this catalog correct, use your Studebaker chassis & body manuals for the exact information and application regarding your vehicle.

Hours

Our Studebaker International Stores are open Monday thru Friday from 8 a.m. To 5 p.m., Eastern Standard Time. Our telephone ordering lines are open Monday through Friday 8 - 6 (EST).

Prices

As collectors and hobbyists, we at Studebaker International are concerned about rising prices and do our best to keep prices as low as possible. Unfortunately, we cannot always avoid increases and therefore cannot be responsible for price changes after this catalog is published. If an ordered item has increased significantly from the listed price we will notify you prior to shipping. If the increase is slight we will go ahead and include it with your order without prior notification.

Discounts

We appreciate customers making large purchases and offer the following special discounts:

Purchase total over	\$750.00	10%
	\$1,500.00	15%

Discount applies to a one time only single purchase and is not cumulative or applicable to future orders. Total is for parts only and does not include core charges, shipping and handling fees or any state tax. Part numbers must be furnished when order is placed and **DISCOUNT DOES NOT APPLY TO ORDERS REQUIRING SPECIAL HANDLING.** Returned parts bringing the total to less than the

required total will void the discount. Discount does not apply to special order items or certain N.O.S. parts. We reserve the right to withdraw this offer at any time.

Studebaker International Restorer Package Discount Terms

This might be the way to go if you are restoring your vehicle and want to take advantage of our volume discounts but would prefer to place smaller orders.

You pay a minimum amount up front of \$3000.00 or more to open your package. You draw from that package by placing ANY SIZE parts or novelty item order you wish and receive a 15% discount {see **discount *exceptions**} on your order. You can also use it on pre-orders for delivery to swap meets that we attend to save on shipping, however you cannot use it to purchase items directly from our booth at a swap meet.

The package stays open until you use up the funds. You can take as long as you need

because it **never expires!** You may add to your package in increments of \$1500.00 or more if you do so before your funds are exhausted. We will supply a statement with your orders showing your available balance.

Restorer Package customers are **required** to provide **part numbers** when ordering, so it is strongly suggested that one of your first purchases might be for body & chassis books if you don't already have them.

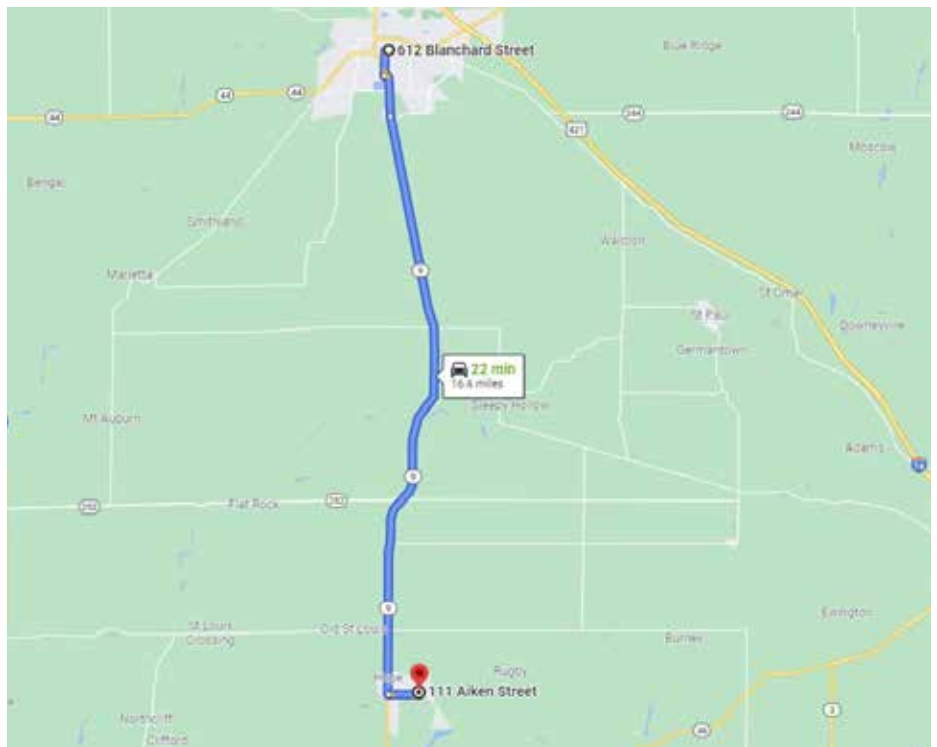

Any unused balance is **not refundable** however, you may transfer your balance to another person such as someone purchasing your vehicle.

Returns will be credited back to your Restorer Pkg. account less the 15% discount. Returns received after your package is closed will be refunded in the form of a "store credit" less the 15% discount.

Discount *exceptions: Rare parts, core charges, shipping/handling, shop/service charges, Avanti seat covers, custom sheet metal, certain other custom items, tires, sales tax.

We reserve the right to withdraw or make changes to this offer at any time.

It is our recommendation that all Studebaker, Avanti & antique car owners be members of a related club.

Studebaker Drivers Club It is our recommendation that all Studebaker owners be members of the Studebaker Drivers Club. This organization publishes a monthly magazine that is loaded with historical information, technical tips, meet locations and reports, and hundreds of classified ads for vehicles, parts and literature. In addition, local chapters exist throughout the U.S. which provide information for obtaining parts and technical information as well as a camaraderie with others sharing a similar interest. Contact: Membership Director S.D.C., Box 1743, Maple Grove, MN 55311-6743 or Call (763) 420-7829

Avanti Owners Association We also advise Avanti owners to join the Avanti Owners Association. The advantages for Avanti owners are the same as those enjoyed by members of the Studebaker Drivers Club - Information, parts, and camaraderie. This organization publishes a quality quarterly magazine that provides Avanti owners with invaluable information. Contact: Membership Director A.O.A.I., Box 1743, Maple Grove, MN 55311-6743 or Call (763) 420-7829

Antique Studebaker Club Owners of Studebakers built through 1946 and M-series trucks are advised to join the Antique Studebakers Club. They publish a magazine six times a year that contains information on the history, maintenance, and restoration of the earlier cars, as well as ads for cars and parts. These manuals are reprints from original Studebaker publications and contain much useful information for the restoration and maintenance of your Studebaker. SHOP MANUALS are how-to fix-it books. They contain pictures, diagrams and text on the removal and replacement of most parts of the car. This includes the engine and its component parts, the brake system, front and rear suspension, steering, cooling system, fuel system, transmission, electrical system, and rear differential. Also included is a section on body parts. Besides removal and replacement of body parts, adjustment and alignment of these parts is also covered.

- Model identification information
- Wiring diagrams
- Lubrication charts and information

Most shop manuals also contain:

- Trouble shooting guide
- Tune-up information
- Torque specifications
- Detailed mechanical specifications

REPRINTED CHASSIS PARTS MANUALS

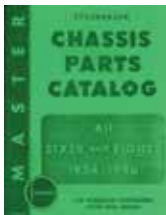

Give exploded views of the various parts of the car with corresponding part numbers. These exploded views show in detail the individual components of most parts on the car. Each component has a identification number. These "part numbers" can then be used when ordering parts. Using part numbers is much more accurate than merely providing a description of needed parts, and cuts down on the possibility of receiving wrong parts. Most chassis manuals also include a section on model identification with beginning serial and engine numbers. Parts of the car included in the chassis manual include the engine, transmission, fuel system, exhaust, cooling system, electrical system, brakes, front and rear suspension, steering, instruments, fenders and sheet metal, frame, and rear differential.

SUPPLEMENTS TO THE SHOP MANUALS

802071 "Hydraulic Power Steering" supplement to the 1953 Studebaker shop manual. When Studebaker introduced their hydraulic power steering in 1953 they created a separate supplement to their shop manual covering repair procedures. This supplement is included in our 800421 1953-54 shop manual. This is an original Studebaker produced supplement and is not a reprint. 24 pages..... **\$15.00 ea.**

802072 1957 Packard Clipper supplement to the 1956 Studebaker shop manual. When the 1957 models were introduced a supplement was printed to cover changes not included in the 1956 shop manual. A separate supplement was made for Studebaker and for Packard models. These supplements are included in our 8000423 1956-57 shop manual. This is an original Studebaker-Packard produced supplement and is not a reprint. 46 pages..... **\$15.00 ea.**

802085 When the 1954 models were introduced Studebaker published this 24-page supplement to their 1953 model shop manual covering specific differences in their 1954 model cars. Reprints of this supplement are included in 800421 1953-54 shop manual. Just as it came from Studebaker, this is an original manual and is not a reprint..... **\$15.00 ea.**

REPRINTED OWNER'S MANUALS

Came in the glove box when the car was new and were intended to acquaint the owner with the new Studebaker. Included are starting instructions, location of instruments and controls, engine break-in procedures, lubrication and service procedures as well as lubrication charts. A listing of specifications is also included. All manuals listed are reprinted unless otherwise stated.

Reprints are copied from originals and are of excellent quality.

REARVIEW MIRRORS

All passenger car mirrors are suitable for both left and right side mounting.

NOTE: Once mounted, mirror adjustment is limited. Studebaker international recommends that mirrors be positioned for best visibility with someone in the driver's seat before you drill the mounting holes.

AC-1400 Reproduction 1947-1952 rearview mirror frequently used on Champion models. Mounting gasket & screws included **\$125.00 ea.**

AC-1400X Right side only. Same as above but with convex glass. Mounting gasket & screws included **\$125.00 ea.**

AC-2918X Right side only. Same as above but w/ convex glass. Mounting gasket & screws included **\$105.00 ea.**

RIGHT SIDE REARVIEW MIRRORS

Outside rearview mirrors were optional for Studebakers in most states. Right side mirrors were also optional and were rarely ordered as they were small and difficult to see from. When they were installed it was mostly for decorative purposes.

Newer cars use convex glass on the right side mirror to enhance visibility. We now have all of our Studebaker mirrors available with convex glass for the right side. Even though this is not original for the purist, it will provide better visibility and make the right side mirror more functional. All have "Objects in mirror are larger than they appear" written on the surface.

800364 Replacement mirror head. Will work on your original base **\$45.00 ea.**

800364X Right side only. Same as above but with convex glass **\$45.00 ea.**

We had some complaints on the detail and fit of our gold and chrome Hawk bird emblems. We made new tooling and the emblems are now stamped brass. Just as they were originally! The detail is now identical to the originals and the pin location is an exact match allowing the pins to easily go into the existing holes.

HOW TO DETERMINE WHAT SEAT BELT LENGTH TO ORDER

- 1) Move the front seat back to its farthest position.
- 2) Have your largest passenger sit in the car.
- 3) Wrap a tape measure around their waist where the seat belt would normally fit them.
- 4) Slip both ends of the tape measure through the rear portion of the seat to the floor of the car.
- 5) Measure the distance around them.
- 6) Order the belt with the length closest to this measurement but still allowing enough room for adjustment.

Restoring your car and knowing that you'll be needing lots of parts?

Perhaps, our Restorers' Package is what you need. This is how it works. **The Restorers' Package costs \$3,000.00 up front.** Then you can place large or small orders any time you want and receive a 15% discount on all parts that are not special order or rare new old stock. You can even pre-order parts for us to deliver to one of the car shows or swap meets that we attend, to save shipping charges. The only thing you can't do is use it to purchase parts at a swap meet.

LONG OR SHORT WHEELBASE 4-DOOR SEDAN

"W" Body
Short Wheelbase 4-dr. Sedan (SWB)

"Y" Body
Long Wheelbase 4-dr. Sedan (LWB)

The easiest way to tell whether it's a long (LWB) or a short (SWB) model is that the rear door on long wheelbase sedans contains their own vent window. This vent window opens on all but a few models. From 1947-54 all long wheelbase sedans are Land Cruiser models. All other 4-door models during these years are short wheelbase sedans and are Champion or Commander models. 1955 long wheelbase sedans

are called President State sedans. Short wheelbase 1955 sedans are designated as Champion, Commander or President models. 1956-57 long wheelbase sedans are called President Classic models and all 1958 Presidents are long wheelbase sedans. 1959-60 Lark sedans are all short wheelbase except for some taxis which were long wheelbase. 1961 Cruiser models used the long wheelbase and all other 1961 Larks were short wheelbase. 1962 Larks were all long wheelbase even though some models did not have the rear vent window. 1963-66 Larks were all long wheelbase.

B-Pillar

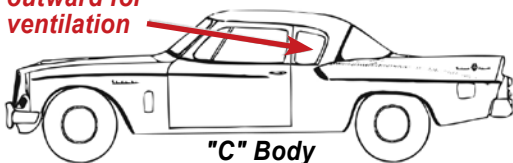

"F" Body

2-DOOR SEDAN

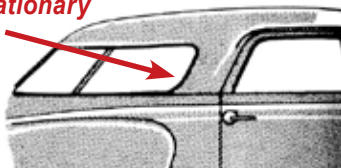

These have a post (B-pillar) separating the door glass from the rear quarter window glass and were available for all years.

Window flips outward for ventilation

"C" Body

Stationary

2-DOOR COUPE

These are similar to 2-door sedans except that the rear quarter windows do not roll down. The rear windows are either stationary or they flip outward for ventilation.

"J" Body

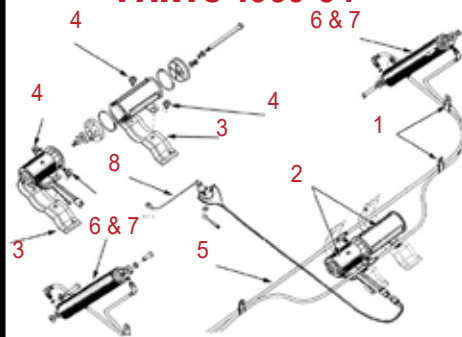

"K" Body

HARDTOP

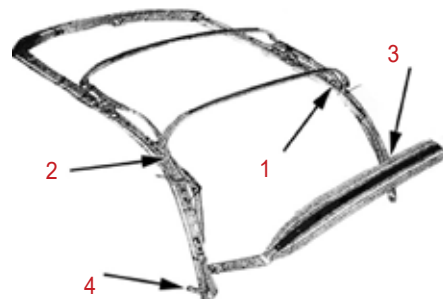

Having a metal roof does not mean that your car is a hardtop. The easiest way to tell if your car is a hardtop is that it is a 2-door model and that there is no post (B-pillar) behind the front door and when both windows are rolled down, there is no pillar. The hardtop model was first introduced in 1952. From 1953-58 it was available as the "K-body" hardtop which remained available through 1958. In 1958 an additional hardtop was available designated the "J-body" hardtop and was available as a Studebaker Commander or President and also as a Packard. From 1959-64, the J-Body was the Lark. From 1962-64, the K-body hardtop was again available and named Gran Turismo Hawk.

OIL ADDITIVE

801847 ZDDPlus avoid metal-to-metal wear on your engine. ZDDPlus After 70+ years of trouble-free, metal-to-metal engine protection, the EPA is forcing ZDDP (Zinc Dialkyl Dithio Phosphate +zinc and phosphorus) from domestic motor oils. If your engine was designed prior to the 1990's the non-roller lifters require the ZDDP in the motor oil to avoid premature deterioration! Don't let the lifters run metal-to-metal. Keep ZDDP, via ZDDPlus to every 4- to 5- quart oil change..... **\$12.31 ea.**

HEATER VALVES

These replacement heater valves closely resemble the original valves. Except the on/off positions are reversed. If your controller is presently pushed in when turned off it will now be pulled out to be off. If moving the lever to the left turns it off then the off position will now require sliding the lever to the right.

IGNITION CABLE SETS COPPER CORE WIRE

Note regarding ignition cables: Copper cable is made with a tin-plated copper core, EPDM insulation with an EPDM jacket. This is very similar to what was in the car when new. Silicone cable is made with a CHT core (Aramid fiber with a conductive latex covering with a conductive silicone cover), EDPM insulation, with a silicone jacket. Silicone cable will not be as easily damaged by exhaust manifold or engine heat and also reduces radio static.

BATTERY MAT

This battery mat offers every car around-the-clock protection from an ever-present threat: its own battery. A battery can leak undetected for months, causing rust on any metal surface the acid encounters. This rust, of course, can cause irreversible damage to body parts resulting in costly repairs or even accidents.

The battery mat (which is slightly larger than a standard size battery) is inserted underneath the battery, which is then clamped down as usual. It can be installed easily at any time, either under an existing battery or when replacing an old one.

Once installed, this battery mat will trap and neutralize battery acid that leaks from the terminals or top side of the battery, thus preventing corrosion and expensive damage. Because of the latex sealant, this battery mat can repel water and keep the acid neutralizers sealed in and potent. Because the latex sealant is not impervious to battery acid, however, the acid will seep into the battery mat's highly porous fabric, where it will be absorbed and harmlessly neutralized.

Everyone who owns a car should install one to prevent damage from a leaking battery. It is usable in Brand "X" cars as well as Studebakers, in recreational vehicles such as motor homes and motor boats.

HYDROVAC FLEX HOSE

NOTE: These lines connect the front pipes to the Hydrovac and after many years of use acquire a build-up of residue that restricts the flow of fluid. If your brakes are sluggish, you may want to replace these 2 hoses.

536652 1955-60 car & 1961-64 Hawk, all models with power assist. Truck: late 56-62 1/2 ton 2E, 7E. Takes 2.**\$39.00 ea.**

Takes 2 for front & 1 for rear

FLEXIBLE HOSES

NOTE: Original brake hoses usually look good on the outside but can be brittle and have a build-up of residue inside. The old rubber can also pull off of the metal ends under heavy pressure. Be safe — replace the hoses!

STUDEBAKER'S FINEST

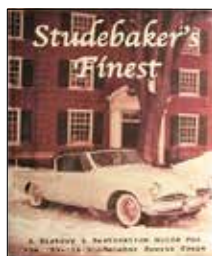

by John Bridges

800052

A history & restoration guide for the 1953-54 Studebaker Sports Coupe. Follows the development and design of the 1953 Studebaker with many factory photos from styling proposals to the finished design.

This book contains much historical information from designer Bob Bourke to all aspects of the design of the 1953-1954 models. A section on manufacturing of the cars contains lots of factory photos of the production line and history of the production problems that plagued the new model. Production figures are included for Champion & Commander models as well as coupes & sedans for both 1953 & 1954 car.

Another section covers how the new 1953-54 models were promoted around the world. Many factory publicity photos are included. There is also a listing of the 18 awards the new design received. This book contains much detailed information with photos concerning emblems, trim, upholstery, accessories, colors etc. that is very useful when restoring one of these vehicles. Changes in the 1954 model are detailed which is also documented with lots of pictures. Specifications and I.D. number locations are listed as well. A section covering 1955 models as well as 1956-64 Hawks is also included. High performance models are included with a special listing of Bonneville records set by 1953 or 1954 coupes. A final section contains restoration basics for these cars with a lot of critical information for anyone restoring or considering restoring one of these cars. It's unfortunate that there isn't a book like this for every year & model of Studebaker. However, this book contains information of interest for all Studebaker enthusiasts, and restorers of other Studebaker models..... **\$39.95 ea.**

AVANTI: THE COMPLETE STORY

by John Hull

801846

Avanti is Italian for "forward" or "advance" & the car lived up to its name. This book tells the amazing story from the Avanti inception in South Bend, Indiana, to its current status in Cancun, Mexico. Many original source documents, factory photographs, corporate records, advertisements, and first hand accounts trace the evolution of this American classic. The Avanti design was conceived by one of the greatest industrial designers - Raymond Loewy & his associates for Studebaker. The Avanti was Studebaker's shining star for a brief period of time (1963-1964 model years) before the company exited the automobile manufacturing business in the United States in December of 1963. The Avanti exhibited phoenix like traits a number of times since & has gone through more than a handful of owners along with updates in design, maintaining a loyal customer base large enough to support production as a luxury specialty car, on & off for more than 45 years. Get the full scoop from an Avanti insider on the companies and people who helped keep Avanti alive **\$39.95 ea.**

STUDEBAKER'S LAST DANCE: THE AVANTI

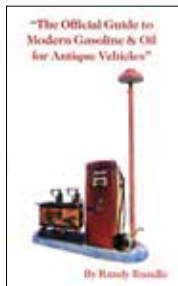

by Andrew Beckman

802205 The Avanti's story is one of the automotive industry's most remarkable tales. Its debut in April of 1962 is a testament to the hard work and dedication of everyone involved with Studebaker's sports car. In the end, the Avanti did not save Studebaker. By 1962 it can be argued nothing could have. Still, the company's quest for salvation brought them back to the playbook that made Studebaker a styling leader. Fresh, original design backed by the Raymond Loewy name. "Studebaker's Last Dance: looks at how America's oldest automobile manufacturer came to build "America's Most Advanced Automobile.". 62 pages.**\$24.95 ea.**

Compiled by the Studebaker National Museum, these monographs include a wealth of information on the models they represent. Photographs are included for most models which includes many exterior, interior and engine compartment photos. These monographs answer many questions and are very useful when completing a restoration. Most of the monographs contain:

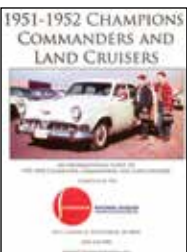

- Detailed articles on the specified models.
- A listing of available paint color options and codes.
- Production totals for each year by model and body style.
- Specifications for all of the specified models.
- Distinguishing differences between the models.
- Factory service letters.
- A listing of wheel and stripe colors.
- Available accessories with prices.
- A listing of original sales and other literature for each model.
- Starting and ending serial and engine numbers for each year.
- A listing of under hood colors.
- A listing of upholstery fabrics and colors.
